

## REWORKS, REPAIRS, & VALUE-ADDED SERVICES

Product inspection and rework solutions tailored to meet your supply chain needs.

**Quality Corrections & Inspections (QCI) is a well-established supply chain services partner that works exclusively on product inspection and rework projects, led by creative problem solvers that listen to your needs and respond with opportunities to meet your objectives.**

## **The “go-to” company for many of the best global brands and manufacturers**

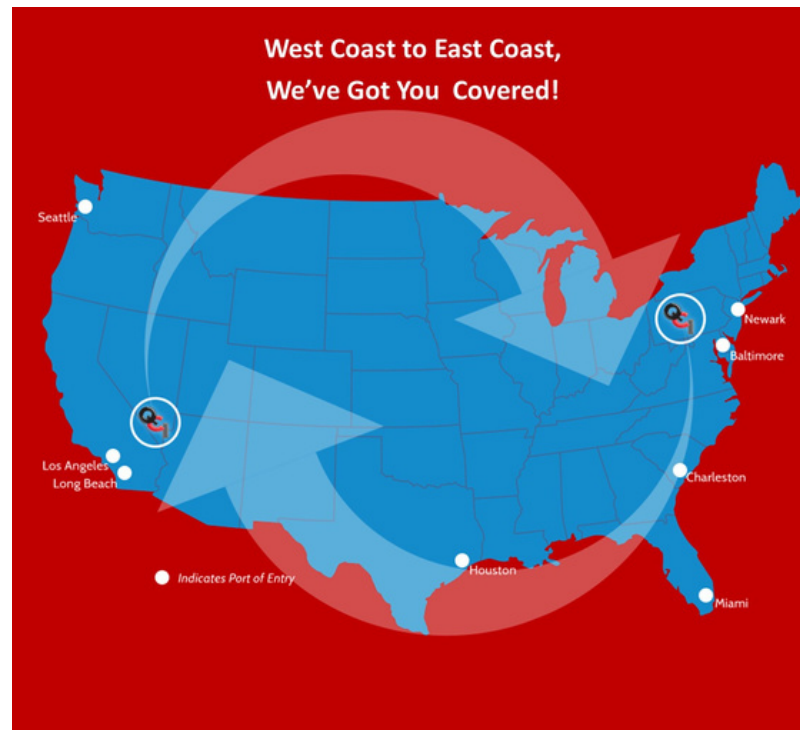

At Quality Corrections & Inspections, our people are truly committed to our mission: serving our customers! Hundreds of brands have trusted QCI to inspect, rework and mitigate disruptive inventory situations for millions of products each year.

## **Experience Counts! Defining the rework industry for nearly 40 years.**

We are the industry leader based on our experience and our defining values: Attention to detail, speed, and discretion. Complete dedication to our core values and our exclusive focus on product rework is what allows our team to stand out as a best-in-class provider of rework services.

## **National footprint to service you**

From the West Coast to the East Coast, we’ve got you covered from our two well-equipped production facilities in Henderson, Nevada and Duncansville, Pennsylvania.

# Product Inspection, Rework and Value-Added Services

# Contact Us Today

We understand the importance of providing the highest quality solutions at the lowest possible price. To deliver on these objectives, we develop a strategic approach to each unique project situation and tailor our services to meet our customer's exact needs. Our no-cost project analysis of your needs can be implemented quickly:

- Present problem/opportunity to QCI team.
- Product samples are analyzed and processed by QCI team.
- QCI conducts timing study, cost analysis, and presents action plan to customer.

**Benefits of outsourcing your product inspection and rework needs to QCI:**

- Opportunity to turn potentially problematic goods into profitable merchandise.
- Meet merchandise availability needs and minimize stock-outs by choosing to rework, rather than return to vendor.
- Quick responsiveness to help you meet seasonal business fluctuations when needed.
- Potential to preserve your reputation for quality products.
- Outsourcing special projects allows you to focus your resources on other high-value business functions.
- Avoid tying up valuable space in fulfillment or distribution centers with "dead inventory".
